Of Shelby.

EDITOR LILLARD, of the Danville News, is somewhat of a mind-reader. In fact his gift in that line is such that he can tell not only what Judge M. C. Saufley wants and thinks, but many things the judge has never thought of. Mind readers are dubbed professors inside shows and many other places and Brer Lillard being one is entitled to all the honors of the "profession." After reading Judge Saufley's mind Prof Lillard finds that our townsmen wants \$76 to buy 100 bushels of wheat and \$5 to buy 100 pounds of tobacco, etc. This settles the question. We have denied the charge all along that Judge Saufley is a bolter, but we must give over now. A man who wants to buy wheat and tobacco at such prices can be nothing short of a bolter. Prof. Lillard also finds that the judge does not want "any thing open and above board" because he asks for a primary. The professor is wrong there. Nothing can be fairer than primary elections, where each voter can have a voice and where the ringsters can't have everything their way. The professor knows primaries are fair, though; he merely pretends to think differently because he knows that Judge Saufley would beat his candidate a block in one. "He prefers the ballot box, where if a fraudulent vote is put in, it can't be gotten out because nobody can say who the fraud voted for. He prefers the system of counting that immediately proceeds to burn up the ballots so that a man may act the rascal without fear of detection." We are shocked at the professor's ignorance concerning the election laws. School children here know that the ballots voted are kept in the boxes for six months and are then burned if there is no contest. Judge Saufley does prefer the ballot box, but you misjudge his reasons for it. He knows, as you do, that those who participate in primaries feel honor bound to support the nominee. He knows that when one or two men in a precinct convention run matters to suit themselves the voters of that precinct take very little interest and feel that there is nothing binding—that they can support the nominee if he suits them, or not as they like. He knows further that this judicial district is no rock ribbed democratic Gibraltar and that the successful candidate has to get every vote possible in order that he may make his call and election sure. In further reading Judge Saufley's mind the professor presents a lot of figures and imagines a childish conversation between our townsmen and his four master commissioners which is too absolutely silly to be noticed. The professor evidently mistakes the most able circuit judge in Kentucky for a peanut politician, who stoops to the small things suggested, but as usual he is wrong. Judge Saufley's dignity is in keeping with the high office he holds and he neither thinks nor cares about the little master commissioner conversations or juggling of figures Prof. Lillard charges to him. The judge is not only a dignified gentleman, but he is a democrat in all the word implies—one who never scratches a ticket, but who with his vote and means helps elect every democrat nominated. Can the professor say as much for the candidate whose nomination he espouses? Certainly he can not.

THE Kansas City Star says that Parson Washburn, of Oyster Bay, who made the now notorious sermon before President Roosevelt, is like a man who arose at a funeral in a Missouri town and announced that "if no person had anything to say about the departed he would like to make a few remarks about the free coinage of silver."

WILLIAM GOOCH, who died near Greenup, aged 90, was in both the Mexican and Civil Wars and never asked or received a pension. His name deserves to be written in letters of gold and pictures of silver.

ON the hypothesis no doubt that the Lexington people have no Bibles, the Democrat, of that city, is giving its readers a chapter of the book of books each Sabbath morning.

ADAIR democrats instructed for Editor F. J. Campbell, of the Somerset Journal, for Congress. Now let the splendid gentlemen be nominated and elected.

THAT republican governor of Iowa is not one of those easy-going politicians. He says "Iowa is for tariff revision, Roosevelt or no Roosevelt!"

IN a speech at Kansas City, W. J. Bryan proposed as a trust remedy, the plan of refusing them admission to the mail, and the use of railroads and telegraph. That would cut no ice. The trusts are rich enough to buy railroads, telegraph and mail lines and then have money to burn. A democratic president and a democratic House is the only remedy and when the people come to their senses and vote right we may hope to subdue, if not entirely break up the internal trusts.

JUST think of this! The annual report of the commissioner of pensions shows that there are 999,446 names on the rolls. There has been a net gain of 5,732 pensioners since 1898. The amount paid out during the fiscal year was \$137,504,288 and the cost of operating the bureaus and agencies aggregates \$3,590,529. The pension system since the beginning of the government has cost \$2,992,509,019.

The superstitious are calling attention to the fact that the president began his New England trip on Friday and Craig was killed, and that he also began his Western trip on Friday with the result that he was brought home on a cot.

PUDDIN' HEAD DEBOE, who is in Washington, says he thinks the Republicans will carry the Third, Fifth, Ninth and 11th Congressional districts in Kentucky.

THE railroad commissioners' race seems to be McCord first and Crockett no where. The former will win on the first ballot at Frankfort to-morrow.

THIS is good news for the soldier boys: The controller of the treasury sustained the contention of Capt. C. C. Cathouse relative to Kentucky's Spanish war claim, and a warrant for \$120,860.63 an excess of \$52,900.03 over the original allowance, was drawn on the United States Treasury. The money will be disbursed to officers and men of the first three Kentucky regiments about Christmas, each private receiving approximately \$50.

O'BANNON.—A Godly woman went to her reward when Mrs. Dr. W. B. O'Bannon passed into the great beyond Sunday night. She had been ill for five weeks and from the beginning she said she would not get well. The doctors here gave her all medical attention possible, but her time had come and her light went out just as a beautiful Sunday passed into a memory. Mrs. O'Bannon was Miss Ellen Frith, of Brodhead, and she was married in 1880 to the man who is now almost crushed by his loss. Early in life she united with the Christian church and she had been a faithful follower of the meek and lowly Nazarine since. She was one of the most untiring workers in the Christian church here and she will be sadly missed in church and other circles. Foremost in all good work, Mrs. O'Bannon's good deeds will live after her. She was one of those excellent women who took pleasure in helping those who needed help, but who never made a display of her charitable acts. Besides her husband, two daughters and two sons are left to keenly feel the loss of a mother's tender love and guidance. May He who shelters the shorn lamb from the storm, guide the motherless children in the right direction and make them emulate the splendid example set by their angel mother. Saturday night the good woman called husband and children to her bedside and after a short talk told them all good-bye. It was a pathetic scene and one that will linger long in the memories of that family. Shortly after noon Sunday she sank into unconsciousness from which she never revived. After services at the Christian church at 10 o'clock this morning by Rev. J. W. Hagin and Eld. B. J. Pinkerton the remains will be laid to rest in Buffalo Springs Cemetery.

The pall bearers at Mrs. O'Bannon's funeral this morning will be Messrs. J. K. VanArsdale, A. A. Warren, Dr. W. N. Craig, John P. Jones, J. S. Hocker, J. H. Baughman.

"ASIDE from the enjoyment of knowing Mr. Hale personally as an intelligent, cultured Christian gentleman, I have heard him recite on three different occasions, and each time with increasing pleasure. His impersonations of character have not only the charm of reality, but show that months and years of study have been given to his work. C. H. Irving, pastor 1st Baptist church, W. Bay City, Mich." At Walton's Opera House, Thursday evening, Oct. 2.

ONE of the most thoroughly enjoyable entertainments given at Walton's Opera House in a long time was that presented by Mrs. A. D. Reid's class Friday evening. It was a Delsarte entertainment and it was as novel as it was pleasing. The prettiest young ladies in town took part and including the children in the working scenes more than 50 persons faced the large audience. The recitations by Misses Ella May Saunders, Anna Darst, Josephine Carpenter and Master Thomas Varson were all deserving of much praise while the vocal solo of Miss Nell Warren and the piano solos of Misses Myrtle Abrams and Etta Belle Cloyd were very fine. The dude drill and drill march were artistically rendered by 16 young ladies and the burlesque on the former by 10 young men was very amusing. The quartette singing was par excellent. Mr. S. B. Levy assisted Miss Anna Darst in her recitation with a solo from II Trovatore. He has a rich voice and his singing was a feature of the entertainment. Miss Allie Huffman furnished music accompaniments and did it well. The tableau were well given and they added greatly to the pleasure of the evening. Mrs. Reid is to be congratulated on the high order and success of her entertainment. She spent less than two weeks training her class. She went to Richmond Saturday afternoon where she will get up a class and will come to Hustonville later in the season. Following is the program which was so excellently rendered:
